Assembly Instructions for Foldable A-Frame (FAF-60)

1. Stand end A-frames upright.
2. Lay support arms flat against the floor next to both ends of each upright and place locking bolts into the securing location (See Figure A) and tighten. Repeat this step for both end A-frames
3. Place support cross bar on top of upright support bar in middle of uprights.
4. Install the bolts, lock washers and nuts, finger tight.
5. Align the uprights parallel to each other, 90 degrees to the upright support bar, and tighten the hardware.

Figure A.

***Safety Note: Foldable A-Frame is NOT intended for use in transport.**

***Before use, place wood in U-channel of all support arms.**

***Max weight capacity is 12,000-lbs per side.**
