Assembly Instructions for GWR-S36LAR Windshield Rack:

1. Lay out the square base tubes and the base support braces as shown below. **Be sure to assemble the front base support brace with the Proposition 65 warning label facing up (see red circle below).**

2. Using the supplied hardware to assemble the base frame. Do not fully tighten hardware until the rack is completely assembled.

3. Next, attach the back support braces to the base frame using the supplied hardware.

4. With the help of another person, attach the uprights to the base frame and the corresponding back support brace.

5. When both uprights are attached to the base frame and the back support braces, attach the upright support braces to the uprights using the supplied hardware.

6. Once the upright support braces are installed, attach the back support bars to the corresponding tabs on the back support braces.

7. Now that all of the pieces are installed on the rack, go back and tighten all of the hardware.

If you have any questions, please feel free to contact us at anytime.
